

华堂宁® Approved in China for T2D

稳控血糖
稳而有道

Disclaimer

This document may contain statements that constitute “forward-looking statements”, including, but not limited to, statements relating to the implementation of strategic initiatives, and other statements relating to our future business development and economic performance.

While these forward-looking statements represent our judgments and future expectations concerning the development of our business, a number of risks, uncertainties and other statutory requirements may render actual developments and results to differ materially from our expectations.

These factors include, but are not limited to, (1) general market, macro-economy, governmental and regulatory trends, (2) movements in local and international securities markets, currency exchange rates and interest rates, (3) competitive pressures, (4) technological developments, (5) changes in the financial position or creditworthiness of our customers, partners, vendors obligors and counterparts, and changes in the developments in the markets in which they operate, (6) legislative or regulatory developments, (7) management changes and changes to our business group structure and (8) other key factors that may adversely affect our business and financial model.

We are not under any obligation to (and expressly disclaim any such obligations to) update or alter forward-looking statements whether as a result of new information, future events, or otherwise.

This material may not be reproduced, distributed or transmitted to any other person or incorporated in any way into another document or other material without the prior written consent of us.

This document is not:

- (a) an offer of securities for sale in Hong Kong or elsewhere; or
- (b) an invitation to enter into an agreement to acquire, dispose of, subscribe for or underwrite securities; or related to the issue of any securities.

All documents and conference contents are for institutional investors, no unauthorized audio and video recordings and may not be directly or indirectly reproduced even modified, redistributed or forwarded to any other person and may not be published in whole or in part for any purpose.
